**Re: Torvane Industrial Group, Inc. —Response to Audit Inquiry —Fiscal Year Ended September 30, 2013**

Dear Ladies and Gentlemen:

This responds to your letter of October 10, 2013, written at the request of Torvane Industrial Group, Inc. (the "Company"). Subject to the qualifications stated below, we advise as follows with respect to matters as to which this firm has been engaged and to which it has devoted substantive attention on behalf of the Company since October 1, 2012.

**1. Torvane Industrial Group, Inc. v. Ridgeline Constructors, Inc.,** American Arbitration Association, Pittsburgh, Pennsylvania. The Company asserts claims for installation defects and delay arising from the Kelling Station Unit 2 expansion project; the respondent has counterclaimed on a specification-deficiency theory. Evidentiary hearings concluded March 22, 2013; post-hearing briefs were submitted May 20, 2013; the matter is before the panel for decision. The Company is prosecuting the claims vigorously. We believe the Company's claims to be meritorious and the counterclaim to be without substantial merit; because the matter awaits decision, we express no view as to the amount or range of any recovery.

**2. Unasserted claims and assessments.** The Company has not identified to us, for the purpose of this response, any unasserted claim or assessment requiring comment hereunder.

**3. Fees.** Unpaid fees and disbursements owed to this firm by the Company as of the effective date of this response total \$41,286.

The effective date of this response is October 18, 2013. You have asked for an effective date as close as practicable to November 15, 2013; at your request we will update this response through that date. This response is limited by, and made in accordance with, the ABA Statement of Policy Regarding Lawyers' Responses to Auditors' Requests for Information (December 1975); without limiting that Statement, we have not undertaken to reaffirm or update this response after its effective date. Consistent with the Statement of Policy, this response does not address matters as to which the firm has not been engaged or to which it has not devoted substantive attention.

Very truly yours,

/s/ Arthur Pllum
