

CERTIFICATE OF AUTHENTICATION — ARCHIVED ELECTRONIC MAIL

Matter: Ardsley Financial Group notice of claim dated November 12, 2024

Project: 632588 (Culver City series) — Ardsley Financial Group Headquarters, Corbin Tower

Certificate date: February 3, 2025

Certifying custodian: Teodoro Villanueva, Director of Practice Technology, VAA interiors + architecture

1. The archive

The messages produced in this matter were retrieved from VAA's electronic mail journal archive. The relevant characteristics of that archive are as follows.

Attribute	Value
Commissioned	March 2008
Capture method	Server-side journaling at the transport layer, all mailboxes, inbound and outbound
Storage mode	Write-once, read-many; content-addressed
Retention	Indefinite; no deletion policy applied to journaled mail
Migrations	None. The archive has never been migrated, reindexed in place, exported and reloaded, or converted between formats
Relationship to DocuVault / Corvantis	None. The mail archive was never part of either project information platform and was not in scope for the November 2016 migration
Gaps in coverage	None identified between March 2008 and the certificate date

2. What is delivered with each produced message

1. Complete original internet message headers, unmodified, including all `Received:` lines.
2. The original `Message-ID` as assigned at the time of transmission.
3. Original transmission and receipt timestamps with time zone offsets as recorded.
4. All attachments as transmitted, in their original encoding, with original filenames.
5. The journal envelope recording every recipient including blind copies.

3. Multiple independent copies

Journaling captures at VAA's own transport, so a message is retained once for each **VAA-side** party to it. Copies held in the mailboxes of external parties are outside this archive and

are not certified here.

The two messages of principal significance in this matter are held as follows.

Message	VAA-side journal records	Identical body and attachment payload
April 6, 2011 — R. Ashcombe to D. Truscott, cc Kilcoyne, Radcliffe, Okonkwo	2 (sender and Okonkwo)	Yes
May 17, 2011 — D. Truscott to R. Ashcombe, cc Kilcoyne, Radcliffe, Okonkwo	2 (Ashcombe and Okonkwo)	Yes

Both copies of each message were independently extracted and compared. The body and every attachment payload are byte identical across the copies. The Received: chains differ between copies, as they must, because each records its own delivery path.

4. SHA-256 manifest — extract, determinative items

Item	Date	SHA-256 (first 8 bytes, 16 hex characters)
Message — Nwachukwu to Ashcombe	Oct 14, 2010	4b1c7f02ae59d3a8
Message — Sollberg to Okonkwo	Feb 8, 2011	9e30f5b7c1482dd6
Message — Okonkwo to Radcliffe	Feb 10, 2011	1a77c0e4b93f6205
Message — Radcliffe to Ashcombe	Mar 2, 2011	c5d8206b7ea1f394
Message — Farago to Truscott	Mar 9, 2011	73b9e144f0a6c28d
Message — Ashcombe to Farago	Mar 15, 2011	2f6a94d3018be7c5
Message — Okonkwo, Minutes No. 47	Mar 24, 2011	e042b8175cd9a63f
Message — Ashcombe to Truscott	Apr 6, 2011	8c31de0947ab52f6
Message — Kilcoyne to Ashcombe	May 5, 2011	5d7f21c6b804e39a
Message — Truscott to Ashcombe	May 17, 2011	a90b4e6215fc783d
Message — Okonkwo to Radcliffe, ASI-031	May 19, 2011	36f8a5c091d7b4e2
Message — Okonkwo, Finish Schedule Rev 4	Jun 3, 2011	bd15903f6c28ae74
Message — Bergamini to Radcliffe	Aug 26, 2011	07e6c3421ba9df58

Item	Date	SHA-256 (first 8 bytes, 16 hex characters)
Message — Kilcoyne to Ashcombe	Sep 17, 2013	f42d8b16093ce5a7
Message — Threadgill to Ashcombe	Oct 8, 2013	61a97c05d3e28bf4
Attachment — VAA letter of recommendation	Apr 6, 2011	d38f0e72c4159ba6
Attachment — Ardsley written directive	May 17, 2011	2b6c94f1a07d83e5
Attachment — ASI-031	May 19, 2011	9f01a8d5632b7ce4
Attachment — Ardsley acceptance letter	Oct 8, 2013	7ce23b90f184a5d6

This table is an extract. The machine-readable manifest accompanying this certificate carries the full 64-character digest for all fifteen produced messages and all ten produced attachments.

5. Certification

I certify that the foregoing is true and correct to the best of my knowledge, that I am the custodian of the described archive, that the produced messages were retrieved by me from that archive in the ordinary course, and that neither I nor any person at my direction has altered, redacted, reformatted or re-encoded any produced message or attachment.
