

PRACTICE NOTICE — PROJECT NUMBER CONSOLIDATION

Notice No.: PN-2013-04

Date: August 12, 2013

Effective: October 1, 2013

To: All Staff, all studios

From: Managing Board

1. Background

VAA presently operates **two independent project numbering series**.

Series	Studios covered	Range in use	Origin
Culver City series	Culver City, Irvine, San Francisco	6-digit, 6xxxxx	In continuous use since 1998
Iselin series	Iselin	6-digit, 6xxxxx	Inherited at the 2004 acquisition of the Iselin practice and never merged

Because both series draw from the same six digit range, **the same project number can and does identify two different projects**. As of this notice there are **47 duplicated numbers** across the two series.

2. What changes on October 1, 2013

A single consolidated series takes effect. All new projects, all studios, are numbered from the consolidated series beginning at **704000**.

3. What does not change

Existing project numbers are not reassigned. Renumbering live projects would break executed agreements, filed drawings, permit records, invoices and consultant contracts. Duplicated numbers from before October 1, 2013 remain duplicated permanently.

4. How to disambiguate a pre-consolidation number

When referring to any project numbered before October 1, 2013, **state the series**. Write “632588 (Culver City)” or “632588 (Iselin)”, not “632588”.

5. Known duplicates — extract

Number	Culver City series	Iselin series
629104	Brightleaf Academy Library Renovation	Sussex County Adult Learning Center
630877	Halloway Center Lobby Repositioning	Raritan Bay Surgical Pavilion
632588	Ardsley Financial Group Headquarters, Corbin Tower	Meridian Health Partners, Edison Ambulatory Center
633190	Delmarco Hospitality — Culver Hotel Guestrooms	Perth Amboy Municipal Complex Interiors
634702	Osterlund Group Offices, Irvine	Woodbridge Financial Center Repositioning
636115	Tessmer Biosciences Fit-Out	Edison Township Public Safety Building
637428	Marisol Plaza Retail Interiors	Bergen County Family Justice Center

Full duplicate list is maintained by Practice Technology.

6. Records systems

Docuvault has been configured to display the series designation alongside every pre-consolidation project number. Search results returning more than one project for a single number will display both with their series.

Questions: Practice Technology, extension 4120, or your studio director.
