Replacement-Cost Appraisal — Fixed Dock & Boathouse

Prepared for: Harbor Point Marina LLC (Thomas Brennan)

Purpose: Insurance scheduling — Meridian Mutual

Appraisal Date: May 20, 2011

Appraiser: Luis Ferraro, Bayside Marine Contractors

Structures Appraised

Structure	Description	Replacement Cost
Fixed dock system	320 ft of pile-supported timber decking, 42 hardwood piles, utilities	\$196,000
Boathouse	Over-water covered storage, timber frame, metal roof, two marine doors	\$144,000
Total		\$340,000

Basis of Valuation

Replacement cost reflects current (2011) pile-driving, marine-grade lumber, and labor rates to rebuild each structure to its existing size and specification following a total loss. Values exclude land and moored vessels. Structures are in good condition with no material deterioration noted at inspection.

Certification

I certify the above replacement-cost values are a true and reasonable estimate as of the appraisal date.
