

Independent Adjuster Report — CLM-2024-10592

Assigned by: Rachel Kim, Meridian Mutual Insurance

Adjuster: Grace Tan, Apex Independent Adjusters

Inspection Date: March 8, 2024

Report Date: March 11, 2024

Insured: Harbor Point Marina LLC

Location: 27 Harbor Point Road, Rockport, MA 01966

Structures Inspected

Fixed dock system and boathouse, scheduled under Endorsement #3 of policy MPP-2011-44873.

Findings

Item	Finding
Fixed dock	Total loss. Piles sheared at the mudline; decking and framing destroyed; utilities torn away.
Boathouse	Total loss. Structure collapsed off its piles into the basin; nothing salvageable.
Cause of loss	Windstorm and wave action from the February 6–7, 2024 nor'easter — a covered peril under Endorsement #3.
Pre-existing condition	No evidence of prior deterioration, rot, or deferred maintenance that would materially reduce the loss.
Contractor estimate review	Bayside Marine estimate #4471 (\$412,600) — scope and unit pricing reasonable for current market.

Conclusion

Both scheduled structures are confirmed total losses from a covered peril. The loss is consistent with the reported cause and the contractor's scope. I recommend the claim be adjusted on a replacement-cost basis subject to the endorsement limit.
