

Migration Scope Notice — EXAMTRAC to SENTRY

Issued: March 11, 2016

Cutover completed: weekend of March 5–6, 2016

Audience: All examination staff, all regional offices

Owner: M. Ellenbogen, Office of Information Technology

Change record: SENTRY-1980 (cutover), SENTRY-2214 (open at issue)

1. Status

EXAMTRAC is read-only as of March 7, 2016 and will be decommissioned at the end of the fiscal year. All new and open examination records are created and maintained in SENTRY.

2. What migrated, and what did not

Migration scope was set by the examination's **closing date**, not by the registrant, the office or the examination type.

Examination closed	Summary record	Final letters issued to registrant	Registrant correspondence	Staff work papers	Call memoranda	Internal review memoranda	Follow-up flags	Attachments to correspondence
On or after Jan 1, 2014	Migrated	Migrated	Migrated	Migrated	Migrated	Migrated	Migrated	Migrated
Before Jan 1, 2014	Migrated	Migrated	Not migrated	Not migrated	Not migrated	Not migrated	Not migrated	Not migrated

“Final letters issued to registrant” means the deficiency letter and the closing letter **as recorded in the EXAMTRAC letters table**. Letters that were sent as email attachments and never separately indexed in that table were not captured by the extract and did not migrate.

In practice the closing letter was indexed as a matter of course, because indexing it was a step in the EXAMTRAC closing workflow and the workflow would not complete without it. Letters issued while an examination was still open — including deficiency letters — were indexed only where the examiner did so by hand, and in the majority of pre-2014 examinations they were not.

Population affected: 41,208 examinations closed before January 1, 2014.

3. Disposition codes

The legacy code set had four closing values. The SENTRY code set has three.

EXAMTRAC	Meaning	SENTRY target
C-1	Closed, no deficiencies identified	C-1
C-2	Closed, no further action	C-2
C-3	Referred	C-3
C-4	Closed on registrant undertaking	C-2

C-4 has no counterpart in SENTRY and was mapped to C-2. Ticket SENTRY-2214 has been raised against this mapping.

4. What this notice is not

Nothing has been deleted. EXAMTRAC data remains on the retired platform pending disposition instructions from the Office of Records Management Services, and a restore request may be raised through the service desk. It is not searchable from SENTRY and restores are handled as a project rather than as a lookup.

Do not treat the absence of a document in SENTRY as evidence that the document was never created. For any examination closed before January 1, 2014, SENTRY holds the summary record and the indexed final letters and nothing else, whatever the examination actually involved.
